Letter from President

Dear Prospective Corporate Partner,

Thank you for considering a partnership with the University of South Florida chapter of the National Society of Black Engineers (USF NSBE). As one of the most active student organizations on campus, we are committed to creating opportunities for Black engineers to thrive academically, professionally, and personally.

NSBE was founded in 1975 to increase the number of culturally responsible Black engineers who excel academically, succeed professionally, and positively impact the community.

Our chapter continues to embody this mission by connecting students to industry mentors, professional development, scholarships, and STEM outreach experiences.

Through this packet, we invite you to invest in the next generation of innovators and changemakers. Your partnership provides critical funding to support student travel to national conferences, community STEM outreach, skill-building events, and more. You also gain direct access to a pipeline of talented, diverse engineers eager to contribute to your company's success.

Thank you for taking the time to review our packet. We look forward to partnering with you to create a more equitable future in STEM.

**Thanks,
Gerald**

Conferences

National Conference

Our largest gathering, drawing 10,000+ Black engineers, students, and professionals across the country. USF NSBE sends a delegation to attend professional development workshops, leadership events, & one of the largest engineering career fairs in the nation.

Fall Regional Conference (FRC)

FRC brings together NSBE members across Region III to build leadership capacity, academic success, and professional excellence. Our chapter attends to participate in competitions, panels, and career fair engagement.

Community Impact

At USF NSBE, our mission extends beyond campus.

We're committed to empowering the next generation of engineers through meaningful outreach, hands-on education, and community-driven events that uplift students and families across Tampa Bay.

A Walk for Education

We raised money and distributed over 50 SAT prep books to students in underserved communities, while educating families on college pathways and career readiness.

Lomax Elementary STEM Elective Class

Bi-weekly, our members lead engaging STEM sessions for elementary students—introducing foundational engineering concepts through fun, interactive lessons with robotics.

Sheehy Elementary 5th Grade STEM Day

Our chapter engaged all 5th grade students in creative, hands-on activities, making science accessible, fun, and memorable.

Stride and Thrive 5K Community Run

Our inaugural 5K united students, alumni, and locals to promote wellness and raise funds for STEM outreach programs.

Community Impact

USF Engineering Expo

We hosted immersive activities like oobleck mixtures, baking soda volcanoes, and liquid sand exhibit to excite K-12 visitors about STEM at USF's largest outreach event.

Sunset Beach Clean-Up

Our chapter rolled up our sleeves for a coastal cleanup at Sunset Beach, demonstrating our commitment to environmental stewardship and public service.

Volunteer Day with Metropolitan Ministries

USF NSBE members volunteered with Metropolitan Ministries—serving meals, sorting through clothing donations, and bringing care to families in need.

Dia de Ciencias with SHPE

Collaborating with the Society of Hispanic Professional Engineers, we showcased our liquid sand exhibit inspiring bilingual STEM exploration and cross-cultural learning.

King High School College Readiness Panel

Our members joined a scholar panel for rising seniors, offering real insights on navigating college life, choosing majors, and preparing for post-secondary success.

Professional Development

Our members experience professional and academic growth.

USF NSBE empowers members through resume workshops, mock interviews, technical sessions, and exclusive corporate partner networking.

Corporate Office Tours

Through exclusive visits to company headquarters and facilities, members gain firsthand insight into workplace culture, engineering operations, and early career pathways.

Corporate Partner Spotlights

Industry leaders such as Honeywell, WSP, and Accenture Martin host private sessions with our members, sharing career insights and recruiting talent from our chapter.

Resume & LinkedIn Workshops

We host peer-reviewed and recruiter-led sessions to help students craft strong, professional resumes and standout digital profiles.

Conference Preparation Series

In the lead-up to FRC and the National Convention, we support members with targeted prep: resumes, attire tips, networking strategy, and goal-setting.

Professional Development

Technical Skill-Building Sessions

We offer hands-on training in software, technical problem solving, and interview-style whiteboarding to give members a competitive edge.

Career Panels with Alumni & Upperclassmen

We organize student-led panels where members hear real advice from NSBE alumni and upperclassmen on internships, grad school, full-time jobs, and navigating life after college.

Academic Study Halls

Quarterly study halls provide a focused, collaborative space where members can review course material, receive tutoring, and hold each other accountable in the semester.
